- \$10 of each ticket comes back to #MO4H for use in our programming
- Tickets are emailed directly to you as soon as you purchase them

Please note:

2022-2023 Online Clover Catalog

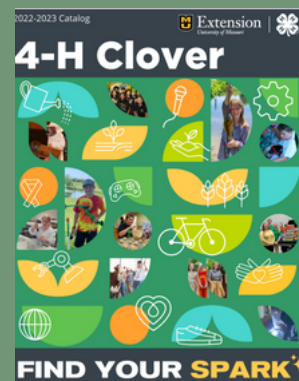

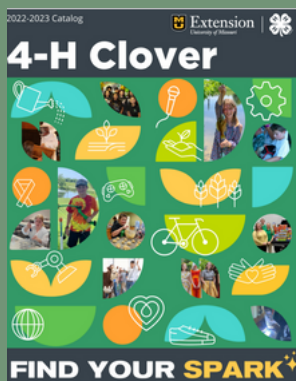

2022-23 Clover Catalog

By now you have probably received your new Clover Catalog to browse through and pick your projects for the new year! If you haven't, and want a sneak peek, you can always view the Online Clover Catalog (shorturl.at/dfkpt). You can use the links to directly access the appropriate webpage for projects or events of your choice. You will also note, that on the same page, you can download a PDF version of the Clover Catalog. It has links as well and is handy for reference on the go.

NOTE: For those of you that struggle with bandwidth or slow internet, try using this link for direct download the PDF version (shorturl.at/fiTU8).

The main changes in the Clover this year:

- **Ag Tractor** was added back since they made curriculum available again. Same as before.
- **Cake decorating** was moved under Communication and Expressive Arts instead of under Healthy Living. Same number, nothing changed, just moved locations in Clover.
- **Clover Kids:** just has one project number—it doesn't matter how many years they are in the project, they just use the same number. 3 colors of pens are still available.

4-H on Canvas

Don't forget to re-register for 4-H On Canvas!

Canvas is an online learning system that allows us to create modules for multiple project areas in one place. Project areas have videos, lesson plans and opportunities to connect on discussion boards to extend our project learning beyond our face-to-face meetings. This additional format will:

- Supplement what you are doing locally
- Fill in when project leaders can't be found
- Allow meetings to happen if you cannot gather

4-H on Canvas includes videos, lesson plans, and discussion boards. One profile covers everyone in your household! For use by members and volunteers! Set up ONE profile for your entire household for \$5.00 to access ALL project areas. Scholarship funds may be requested. You will use any active member/volunteer in your household in 4-H Online to register for an event titled "4-H Goes Online - It's Project Time!" This course can be used by club leaders, project leaders and 4-H members alike. If clubs or project groups would like to establish their own groups within the course, please email the Missouri 4-H Canvas Manager at 4hcanvassupport@missouri.edu to do so. Please note: if you do not create your own group, what you post will be shared with Missouri 4-H Statewide within this course. This course is not intended to be mandatory, rather an alternative method for project meetings/resources.

We still need host families for our Summer Japanese delegates who arrive on July 23 and depart August 14/16. Host siblings should be ages 9-15/16. Only requirement is that the delegate needs to have his/her own bed. Can share a room. Would like for them to have an everyday USA family experience.
